

Please do not weaken New Jersey's "Do Not Call" law. I understand the telemarketers point of view, and disagree with it. I believe that my telephone and email are for my convenience, and do not wish intrusions. I do feel that my right to peaceful enjoyment is greatly disturbed by repeated computer-generated calls and messages.

I also feel that the laws have not kept up to technology. Telemarketing calls were originally made by humans, who did not usually call back when their sales pitch was rejected. Today, the calls are made repeatedly made by computers using voice messages. One of these calls can tie up the phone line for an extended time, and that makes my convenience no longer to me.

Do not attempt to give in to the telemarketers lobby !!!

Thank you
